REMAC

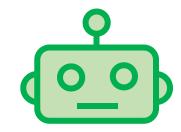

Evolve!

I can call the other robot for help.

I am holding a carrot in my gripper, so I can't open the door.

I should open the door first and then pick up the carrot. open microwave door pick up carrot

Efficiency+

3) Self-evolve single robot

1) Naïve single robot

Check!

Immediately replan based on pre- and postconditions check results.

I need to put down the carrot first before I can open the door. place to counter open microwave

2) Self-reflective single robot

Reflect!

Based on past experience, I can do better in the next time.
